After the last Organizations, Artifacts and Practices workshops (OAP workshop) workshop, that took place in Lisbon last June, we would like to send a message to invite the OAP authors to participate to our call for papers at *RAE – Revista de Administração de Empresas*, special issue on sociomateriality and the relationship among organizations, artefacts and practices. We want to emphasize that this call for papers are not limited to the ones presented at the workshop, however there is a limit of only one paper per author.

We would like to recall that *RAE* is one of the strongest academic journals in the management area in all Iberoamerican countries, including Spain and Portugal, and its international visibility and reputation is increasing as its impact factor in JCR (Journal Citation Reports – Web of Science) and SJR (Scientific Journal Ranking – Scopus) is continuously growing.

## SUBMISSION OF PAPERS

Submitted papers must not have been published, accepted for publication, or presently be under consideration for publication elsewhere. To be eligible for review the paper must be set up according to the RAE's guidelines (Available at <http://rae.fgv.br/en/manual-rae/guidelines>).
